

BS Air Purifier 300DAI

2 YEAR WARRANTY

Coverage Area 300 sq. ft.

Unique Features

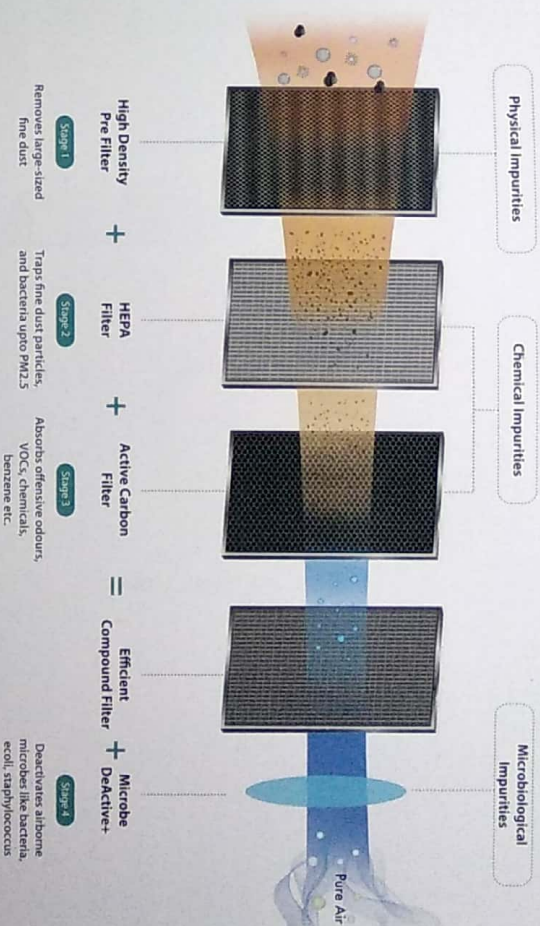

- Microbe DeActive+ Technology
- Advanced 3-Stage Multi Purification System
- CADR 200 M/H
- Air Quality Sensor
- Turbo, High, Medium & Low.
- HEPA Filter for PM2.5 Pollutants
- Real-time PM2.5 LED Indicator
- Auto Filter Clean LED Indicator after every 720 hours of Operation

Microbe DeActive+ Technology

Microbe DeActive+ technology effectively deactivates bacteria, mold, pollen etc. It destroys more than 99.5%* of airborne pollutants present in the indoor atmosphere.

*As per third party lab test report

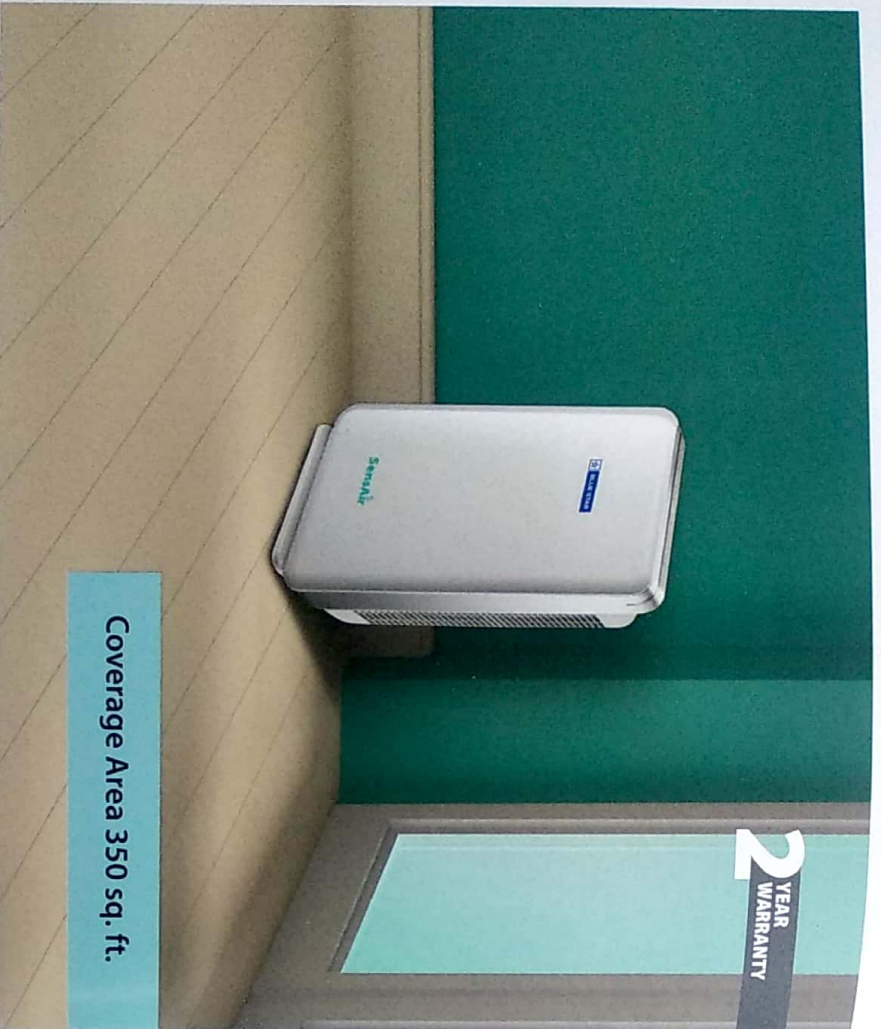

Advanced 3-Stage Filtration Process

*As per third party test report.

BS Air Purifier 250RAP

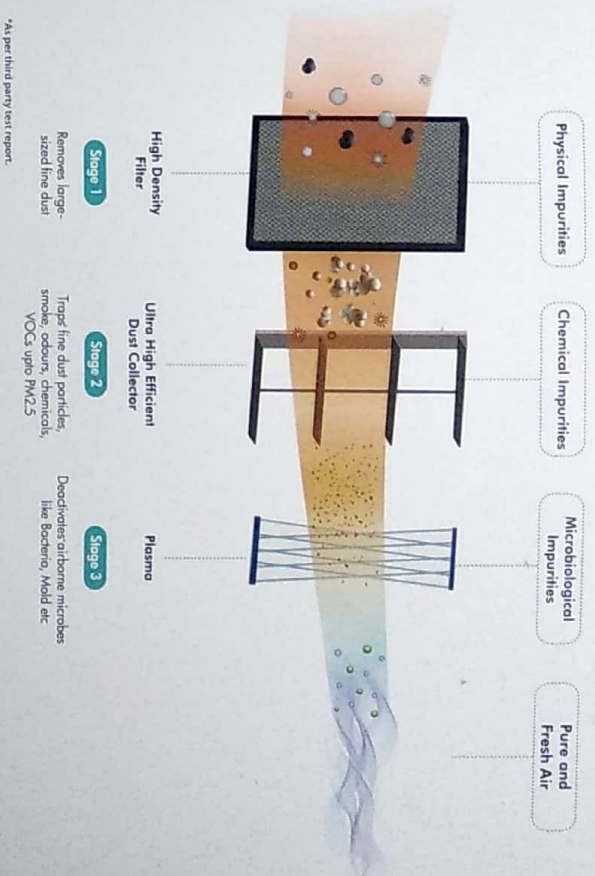

Unique Features

-  Plasma Technology
-  Advanced 3 Stage Multi Purification System
-  CADR 230 M³H
-  Filter Clean Indicator
-  PM2.5 LED Indicator
-  Coverage Area: Max. 350 sq. ft.

Plasma Technology

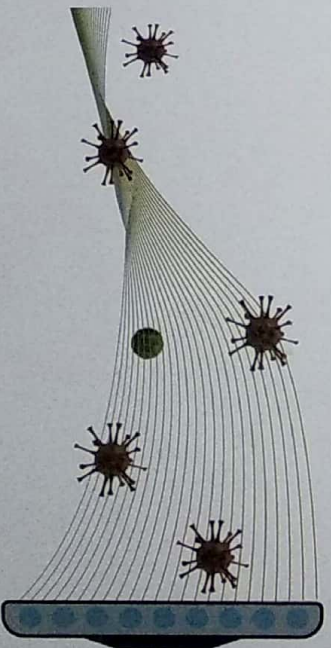

The plasma technology ensures that the air purifier absorbs, destroys and eliminates extremely harmful microbiological and chemical pollutants (microbiological pollutants like bacteria, virus, pollen, molds, dust mite, animal dander and gaseous pollutants like VOCs, Formaldehyde etc. up to 99.7%).*

*As per third party lab test report

Ultra-Efficient Dust Collector

These are highly charged electrostatic filters that are super-efficient and can collect dust, smoke, fine particles, up to PM2.5 from anywhere inside a closed room environment.

Removes up to PM2.5 efficiently

Technical Specifications

Model Name	BS-AP450SAMW PM2.5	BS-AP250PAP	BS-AP490LAN	BS-AP300DAI

New with PM2.5 real-time digital indicator.

2 YEAR WARRANTY

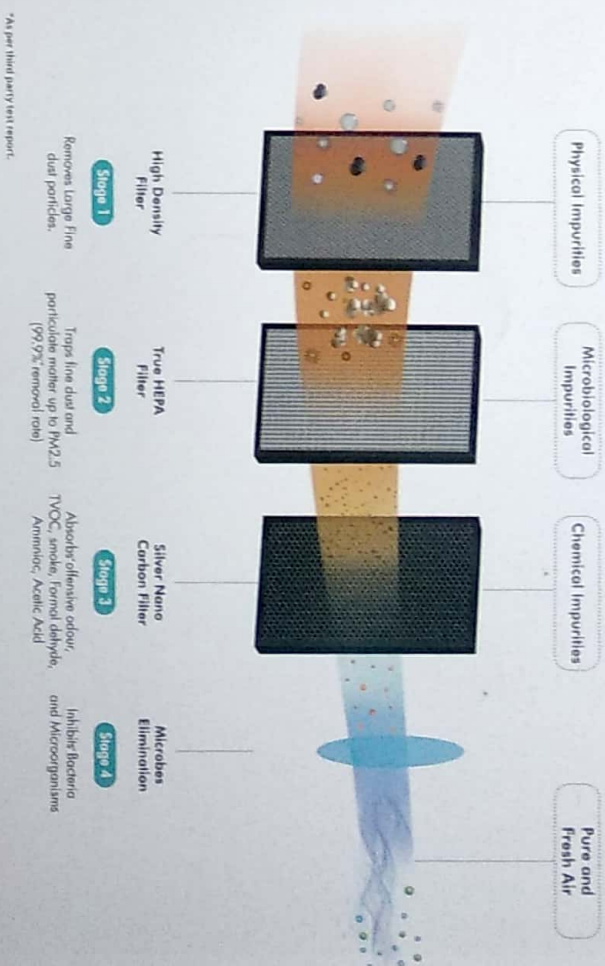

Coverage Area 650 sq. ft.

Unique Features

- nanoe™ Technology
- SensAir Technology
- True HEPA Filter for PM2.5 Pollutants
- CADR 420 M³H
- Coverage Area: Max. 650 sq. ft.
- Digital PM2.5 Numeric Indicator
- Odour Sensor
- Filter Change Indicator

nanoe™ Technology

nanoe™ creates nano sized electrostatic atomized water particles with plenty of OH radicals. These powerful OH radicals purify the air by inhibiting pollutants like bacteria, molds and microorganisms. That's not all, the nanoe™ technology also hydrates the sebum to retain the moisture of our skin and makes hair straighter by arranging the cuticles.

BS Air Purifier 490LAN

2
YEAR
WARRANTY

Coverage Area 490 sq. ft.

Unique Features

- Microbe Sterilize Technology
- SensAir Technology
- True HEPA Filter for PM2.5 Pollutants
- CADR 318 M³H
- Advanced 7-Stage Multi Purification System
- Digital PM2.5 Numeric Indicator
- Good Sleep Mode
- Odour Sensor

Microbe Sterilize Technology-Deactivates microbes by destroying their DNA.

The Microbe Sterilize technology in this air purifier is truly special. It absorbs and destroys harmful micro-organisms like bacteria, viruses, pollen, mold and dust mites that aren't visible to the naked eye. In fact, it's so efficient that it permanently eliminates 99.7%* of microbes from your living spaces.

Before Purification

After Purification with Microbe Sterilize technology

*Internal lab tests also prove that Microbe Sterilize Technology along with Good Sleep mode efficiently destroys harmful microbes like E. Coli and Staphylococcus epidermis up to 99.7% and removes Molds and Fungi by up to 98.45%.

Advanced 7-Stage Indoor Air Purification System

The Advanced 7-Stage Indoor Air Purification System is uniquely designed to purify the air by inhibiting harmful pollutants. So you get clean air to breathe and complete freedom from physical, chemical and microbiological pollutants.

Advanced 7-Stage Indoor Air Filtration Process
